"China's real estate industry remained sluggish during the first half of 2023, seeing a slight first-quarter rebound but then returning to a downward trend during the second quarter. Combined with the ongoing difficulties experienced by China's real estate developers, these factors have created significant challenges for Leju's advertising and e-commerce operations," said Mr. Geoffrey He, Leju's Chief Executive Officer.

"Faced with these unprecedented market difficulties, we have adjusted our product structure and business direction to ensure the stability of our business and have been exploring new business opportunities. Responding to the significant changes in the supply and demand relationship of China's real estate market, starting from the second quarter, local governments in multiple regions across the country have introduced measures to further optimize the real estate regulatory measures. Leju will take this opportunity to further consolidate our foundation and strive for new development opportunities while ensuring healthy operations."

About Non-GAAP Financial Measures

To supplement Leju's consolidated financial results presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), Leju uses in this press release the following non-GAAP financial measures: (1) income (loss) from operations, (2) net income (loss), (3) net income (loss) attributable to Leju shareholders, (4) net income (loss) attributable to Leju shareholders per basic ADS, and (5) net income (loss) attributable to Leju shareholders per diluted ADS, each of which excludes share-based compensation expense, amortization of intangible assets resulting from business acquisitions, and income tax impact on the share-based compensation expense and amortization of intangible assets resulting from business combinations. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.

Leju believes that these non-GAAP financial measures provide meaningful supplemental information to investors regarding its operating performance by excluding share-based compensation expense and amortization of intangible assets resulting from business acquisitions, which may not be indicative of Leju's operating performance. These non-GAAP financial measures also facilitate management's internal comparisons to Leju's historical performance and assist its financial and operational decision making. A limitation of using these non-GAAP financial measures is that share-based compensation expense and amortization of intangible assets resulting from business acquisitions may continue to exist in Leju's business for the foreseeable future. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables provide more details on the reconciliation between non-GAAP financial measures and their most comparable GAAP financial measures.
